*Introducing our innovative solution for SI Joint Pain*

## *Now Offering: Minimally Invasive SIJ Fusion*

**Studies show the SI Joint is the source of pain for roughly 15-30% of patients with persistent low back pain. There's good news! We now offer Minimally Invasive SIJ Fusion, a procedure that gets you back to life faster. It minimizes discomfort and recovery time, helping you regain control of your pain and get back to the activities you love.**

### About the SI Joint

The SI joints absorb movement between the spine and hips. Aging, arthritis, injury, or pregnancy can leave the bones rubbing together — pain that often mimics a lower back or disc problem.

### Conventional care not working?

- ✔ Physical therapy
- ✔ Chiropractic care
- ✔ Medication
- ✔ Therapeutic injections
- ✔ Radiofrequency ablation (RFA)

### Common Signs of SI Joint Pain

- ✔ Lower back pain
- ✔ Isolated pain in one SI joint
- ✔ Sciatic-like pain in buttocks or leg
- ✔ Hip/pelvis/groin pain
- ✔ Reduced range of motion
- ✔ Pain climbing stairs or running
- ✔ Pain lying on one side
- ✔ Leg numbness or weakness
- ✔ Disrupted sitting patterns
- ✔ Difficulty moving from sitting to standing
- ✔ Sleep disturbances due to pain

## The Solution

**Safe Posterior Approach**
A safer approach that avoids vital anatomy such as nerves and muscles

**Incision as small as a dime** **2 cm**

**Low Complication Rates**
Allows patients to have less procedure soreness and a quicker recovery
